## **Family Engagement Meeting Recap Summary:**

During our meeting we talked about space at TUVA and how it is utilized as well as our technology. This was important information for everyone leading up to testing. We also talked about all the events our student council and PTO have planned for the remainder of the school year.

We discussed the upcoming state testing that three sites will be used for testing. Testing will start the end of March going into the first week of April. We sent a Forms to families to select where they would like to test. We need to increase student participation for testing. We asked for feedback on how we might improve participation and the big ideas were to provide transportation, food and water, and find prize and give out tickets to a drawing to encourage students to attend.
