Time: 2pm

Minutes: 37 minutes

Location TUVA Zoom

Family Engagement Meeting Recap Summary

During our recent family engagement meeting, we reviewed past events and discussed what went well, along with areas where we can continue to improve. One of the key ideas that emerged was the creation of an **electronic resource packet** designed to support families navigating online school platforms and tools. This packet would serve as a helpful guide to increase accessibility and ease for our families.

We also talked about the importance of strengthening our communication efforts. As part of this, the team agreed on the need to **update and enhance our social media presence** to encourage greater student involvement and keep families informed about upcoming activities and resources.

Overall, the meeting focused on building on past successes while implementing new strategies to better support and engage our school community.
